PROFILE

Junior Frontend Developer focused on React and TypeScript. Built and shipped a real client website alongside a growing set of self-directed projects covering custom hooks, component architecture, REST API integration and automated testing. Transitioned from operations management into development through a year of intensive, structured self-study. Seeking a junior frontend role in Prague.

PROJECTS

Court Interpreter Website — bekasava.eu Commercial · 2025

Real client project built for a judicial translator. 4-language i18n (CZ/RU/BG/BE) via a typed dictionary (Record<Lang, TranslationItem>), custom hooks useInView and useCounter, accessible FAQ with keyboard navigation and aria-expanded, burger menu, scrollspy navigation. Deployed via FTP to production hosting.

React 19 · TypeScript · Vite · i18n · Accessibility [Live](#)

Expense Tracker React + TypeScript

Full CRUD expense tracker with sidebar navigation, subscription tracking, and month locking. Typed data model and localStorage persistence. Added a component test suite (Vitest + React Testing Library) covering modal and form behavior.

TypeScript · CRUD · localStorage · Vitest · React Testing Library [Live](#) · [GitHub](#)

Movie Search Application TMDb API

Movie discovery app with debounced search, filtering by genre/year/rating, paginated results, and localStorage-backed favorites and search history. Refactored from an 800-line monolithic component into four reusable custom hooks (useDebounce, useFavorites, useMovieData with AbortController-based request cancellation and pluggable response parsing, useSearchHistory).

React · Custom Hooks · Component Architecture [Live](#) · [GitHub](#)

Weather App OpenWeatherMap API

React + TypeScript weather app with search history and themes. Deployed via an automated CI/CD pipeline using GitHub Actions.

TypeScript · GitHub Actions · CI/CD [Live](#) · [GitHub](#)

Next.js Portfolio Hub In progress

Personal portfolio and project hub built with the Next.js App Router.

Next.js 16 · React 19 · Tailwind CSS 4 · App Router

SKILLS

FRONTEND

TypeScript · React 19 · JavaScript ES6+ · HTML5 · CSS3

FRAMEWORKS

Next.js (App Router) · Tailwind CSS 4 · Vite

ARCHITECTURE

Custom Hooks · Component Architecture · i18n · Accessibility (WCAG)

TESTING

Vitest · React Testing Library

TOOLS

Git · GitHub Actions · REST APIs · localStorage · CI/CD

EXPERIENCE

Product Manager

KFC Prague · 2023 – Present
Progressed from cook to junior manager, facility manager, and product manager within two years. Team and shift management, KPI tracking and plan-vs-actual variance analysis, structured project delivery, cross-functional coordination.
